

Temitayo ADEBAYO

Frontend Developer

Niagara Falls, Ontario | L2G 3E7 | adebayotemitayo86@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

- Frontend Developer with a proven track record delivering production applications for digital marketing clients and educational platforms.
- Proficient in React, Vue, TypeScript, and Next.js, with a proven ability to build sophisticated component systems including dynamic filtering, carousel implementations, and file-based routing architectures.
- Successfully converted full-stack applications across major frameworks while ensuring 100% functionality and code quality.
- Experienced collaborating with development teams on responsive UI implementation, committed to building scalable, maintainable solutions and modern web development best practices.

TECH STACK

Languages:	HTML, CSS, JavaScript, TypeScript
Frameworks/Libraries:	Next.js , React.js , Vue.js
CSS Frameworks:	Tailwind CSS, Chakra UI, DaisyUI, ShadCN
Routing:	TanStack Router, React Router, Vue Router, Unplugin-vue-router, Next.js App Router/Pages Router
Build Tools & Deployment:	Vite, Vercel, PipeOps
Version Control:	Git, GitHub
UI/UX:	Figma, Photoshop
Testing/Debugging:	Chrome DevTools, Error Boundaries
API & Data Fetching:	REST APIs, GraphQL, TanStack Query (React Query), Axios, Fetch API
Other:	SEO (with @unhead/react), API Integration (Axios, Fetch), Accessibility (focus management, ARIA), Modular architecture

EXPERIENCE

FRONTEND DEVELOPER INTERN | Fibred

Nov 2025 - Present

- Implement responsive UI components and pages for live production projects under the guidance of senior developers, contributing to educational and marketing platforms
- Develop dynamic, interactive features using Next.js, React, and Tailwind CSS for multi-page web applications with authentication, API integration, and state management
- Build reusable component libraries and page templates that maintain consistency across multiple client platforms and project deliverables
- Collaborate with cross-functional development team on assigned tasks, ensuring timely delivery of scalable, production-ready code
- Apply modern frontend best practices including responsive design, component modularity, and performance optimization across diverse project types

FRONTEND DEVELOPER | Mindset Info. Tech

Nov 2025 - Present

- Translate design team mockups into fully functional, responsive web applications using React, Vue.js, Next.js, and TypeScript
- Develop dynamic multi-page websites and web applications with authentication, API integration, and advanced state management solutions
- Collaborate with designers and developers to implement sophisticated UI features while maintaining pixel-perfect design fidelity
- Build reusable component libraries and modular architectures across multiple client projects with varying technical requirements
- Deliver production-ready code for diverse platforms including marketing sites, educational platforms, and complex web applications using Tailwind CSS and modern styling frameworks

FRONTEND DEVELOPER | Nesix Organisation

Nov 2025 - Present

- Collaborate with a team of 6 developers to deliver full-scale client projects, including dynamic multi-page web applications with authentication, API integration, and state management
- Develop responsive, reusable components for marketing websites and complex web applications using React, Vue.js, Next.js, and TypeScript
- Implement sophisticated features including career page filtering systems, partner carousels, and dynamic routing architectures across client deliverables
- Build and maintain consistent design systems with custom brand colors and styling using Tailwind CSS and modern CSS frameworks
- Contribute to scalable, modular codebases with focus on component architecture and maintainability across multiple concurrent client projects

PROJECTS

SPACE TOURISM WEBSITE | [LINK](#)

- Developed responsive, multi-section website demonstrating modern frontend practices with adaptive layouts and per-page background images
- Implemented screen-size-specific image rendering and dynamic flex ordering for optimized mobile and desktop experiences
- Leveraged Next.js routing and optimization features to ensure smooth performance and accessibility across all device sizes
- **TECH STACK:** Next.js 14, TypeScript, Tailwind CSS v4

INTERACTIVE CARD DESIGN | [LINK](#)

- Built visually interactive credit card form with real-time preview updates as users enter card details
- Implemented DOM manipulation and form validation logic to ensure data accuracy and user feedback
- Developed as coursework assignment demonstrating proficiency in modern tooling and responsive layout techniques
- **TECH STACK:** TypeScript, Tailwind CSS, Vite

THEEZIGNER'S PORTFOLIO | [LINK](#)

- Built visually interactive credit card form with real-time preview updates as users enter card details
- Implemented DOM manipulation and form validation logic to ensure data accuracy and user feedback
- Developed as coursework assignment demonstrating proficiency in modern tooling and responsive layout techniques
- **TECH STACK:** Vue 3, TypeScript, Vite, Tailwind CSS

EDUCATION

Altschool Africa

Diploma in Frontend Engineering | October 2025

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Next.js & React Development** | Scrimba | 2025
Completed project-based program focused on Next.js, React, TypeScript, and modern frontend workflows with emphasis on state management and responsive design
- **Vue.js Mastery** | Vue Mastery | 2025
Mastered Vue.js Composition API, component architecture, reactivity, and state management through structured tutorials and hands-on projects
- **UI/UX Design Professional Certificate** | Coursera | 2023
Completed comprehensive course covering user research, wireframing, prototyping, and usability principles with industry-standard tools

SOFT SKILLS

Problem-solving | Communication | Time Management | Collaboration | Initiative
